

# DISCOVER YOUR FAMILY TREE

Have you ever wondered who your ancestors were? There's an amazing amount of information available - if you know where to look - and much of it is free.

There are two sessions that you can attend, one for absolute beginners, and one for those who have made a start, but are not sure what to do next. They're designed so that if you want, you can attend both sessions on the same day, and there will be plenty of opportunity to ask questions.

Many of the basic principles are the same wherever your ancestors came from, but the sessions will be in English, and will focus mainly on the records available for England & Wales. We'll also discuss what DNA tests can really do - you shouldn't believe the adverts!  
Workshop in the English language only.

## DATES:

January 7th 2019  
January 14th 2019  
February 18th 2019  
February 25th 2019
